

In de Assistant Enterprise configureer je de gegevens van de server waar deze naar toe moet connecten:

- LAB: **web.lab.voipit.nl**

Als user de gegevens welke onder het profile zijn ingevoerd bij User ID, in dit geval:

Username : ceespisuisse@qware.lab.voipit.nl

Password :1234546

Bij " Connection" Host address : qware.lab.voipit.nl
Host port : 2208

Profile

Profile allows you to view and maintain your profile information. The information filled in specifies your primary phone number, extension, and device that are used for handling calls. Filling in the additional information section allows your mobile phone, pager, and other information to be visible to other group members in the group phone list. Some of this information can only be modified by your administrator.

The screenshot shows a 'Profile' configuration window with a dark blue header bar containing buttons for 'OK', 'Apply', 'Delete', and 'Cancel'. The main area is light purple and contains two columns of fields. The left column is for 'Service Provider ID: janhein' and includes 'User ID: xlite01@janhein.lab.voipit.nl', '* Last Name: Phone', '* Calling Line ID Last Name: Phone', 'Department: None', and 'Time Zone: (GMT+01:00) Europe/Amsterdam'. The right column is for 'Group: janhein' and includes a link 'Change User ID (Also saves current screen data)', '* First Name: Soft', '* Calling Line ID First Name: Soft', and 'Language: English'.

Een Quick Reference Guide van de Assistant Enterprise software is als attachment te downloaden. Hierin staat het gebruik van de mogelijke functies.
